Thao Nguyen

Front-End Developer

Gender: Nam
Phone: 0343616333
Email: huuthao98@gmail.com
Address: Ho Chi Minh, Viet Nam
website https://huuthao98.github.io/my-cv/

OBJECTIVE

With over two years of programming experience and strong communication skills, I have a solid product mindset, prioritize user experience, and proactively learn and adopt new technologies. My goal is to become a developer capable of delivering end-to-end products, from UI implementation to business logic. In the near future, I aim to advance toward becoming a Full-stack Developer

SKILLS

Language	HTML, CSS, JavaScript, TypeScript
Library/Framework	ReactJS, React Native, Next.js, Redux, Zustand
UI Libraries	Ant Design, Material-UI, Shadcn/UI
Other	Git, Windows

WORK EXPERIENCE

01/2026 - Present

Homnest Software
Position: Front-End Developer
Team size : 12
Responsibilities :

- Built and maintained an Admin Dashboard with features including user management, role-based access control (RBAC), and real-time data visualization.
- Developed cross-platform mobile applications (iOS & Android) using React Native, delivering consistent UI and smooth user experience.
- Collaborated with the Back-end team to design and review RESTful APIs, ensuring data structures aligned with front-end requirements.
- Integrated server-side APIs into the UI, handling complex data flows and optimizing application performance.
- Participated in technical requirement discussions to propose and evaluate front-end solutions across the team.
- Provided technical mentorship to interns, including code reviews, architectural guidance, and hands-on support for front-end development tasks.

07/2024 - 09/2025

Rio Proxy
Position: Front-End Developer
Team size : 6
Responsibilities :

- Developed responsive and user-friendly web interfaces using HTML, CSS, Tailwind CSS, and JavaScript.- Built interactive applications with React.js, Next.js.
- Integrated APIs to fetch and display dynamic data.
- Continuously optimized website performance to improve user experience.
- Collaborated with team members to maintain and enhance project features.

11/2021 - 06/2022

Plott company
Position: Tester

Responsibilities:

- Participated in software quality assurance by testing features to ensure functionality andstability.
- Assisted in writing test cases based on product requirements.Executed functional, regression, and performance testing according to approved testscenarios.
- Identified, recorded, and reported software bugs and issues to the development team.
- Attended team meetings to discuss testing progress and address arising issues.

EDUCATION

07/2017 - 4/2023

Academy of Cryptography Techniques
Major - Information security

PROJECTS

03/2026 - Present

Vietplus Mobile
Front-End Developer
Developed a cross-platform mobile application (iOS & Android) using React Native and Expo, including building UI screens, navigation, REST API integration, and state management with Redux. Ensured smooth user experience across various screen sizes.

01/2026 - 03/2026

Vietplus Admin Website
Front-End Developer
Key features: User management, reporting & analytics, role-based access control (RBAC), and full CRUD operations. Integrated REST API from backend. Optimized for performance and user experience.

07/2024 - 01/2025

Rio Proxy Admin Website
Front-End Developer
Built an admin dashboard for a proxy management system with full CRUD for proxy lists, real-time status monitoring, user role management, server-side rendering (SSR/SSG) with Next.js, and fully responsive layout.

02/2023 - 04/2023

Clone Tiktok website
https://github.com/huuthao98/tiktik-i

- Developed the project using ReactJS, JavaScript, CSS, and SCSS.
- Built key UI components such as header, footer, and navigation bar.
- Created reusable components and implemented custom React hooks to keep the codebase clean, scalable, and maintainable.
